Politics Experimental Lab
Programmer

Programmers (4-6): The Politics Experimental Lab is seeking computer programmers for the 2016-2017 Academic Year. Programmers will be expected to work with researchers to program computer-based experiments. Computer science majors and those with experience in Python, Z-Tree, Inquisit, R, C++, and Java are strongly encouraged to apply. Programmers will be expected to work 10-20 hours per week, $12.00 per hour.
